

Expedition Mt. Kinabalu

Put on your hiking boots!

The ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge.

~Martin Luther King Jr.

COALITION DUCHENNE™

Raising Global Awareness and Funding for Duchenne Muscular Dystrophy

www.CoalitionDuchenne.org

July 13-15, 2024

Mt Kinabalu, Sabah, Malaysia

Taking Action. Changing the World.

Every day, thousands of boys are faced with the challenges of Duchenne.

You are invited to join our team of international climbers who will scale Mt Kinabalu, in Malaysian Borneo. At the summit, 13,455 ft, we will raise a banner for the world to know about Duchenne.

By taking part in this exciting adventure, the Mt Kinabalu climbers will help all the thousands of boys and men who suffer from Duchenne around the world.

Help us conquer Duchenne by conquering Mt Kinabalu.

The world needs to know about this disease.

What is Duchenne?

Duchenne is a fatal, progressive muscle wasting condition that affects one in 3,500 boys worldwide. It robs boys of their ability to walk, breathe, eat and speak, and eventually takes their lives, often before they reach age 20. It leaves their minds unaffected.
